

LOCAL ROAD CONTRACT

This Local Road Contract is made and entered into this 10 day of MARCH, 2026, by and between the Board of County Road Commissioners of the County of Kalamazoo, hereinafter referred to as the "RCKC," and the Township of Ross, Kalamazoo County, Michigan, hereinafter referred to as the "Township," for the purpose of fixing the rights and obligations of the parties and agreeing to the design/construction engineering and/or construction of certain improvements on county roads within the Township, hereinafter referred to as the "Project(s)."

WITNESSETH: WHEREAS, Section 20 of Act 51 of the Public Acts of 1951, as amended, authorizes Township Boards to appropriate general fund monies and to pay the same into the county road fund of the county for the maintenance and/or improvement of county roads within the Township, pursuant to an agreement between the Township and the RCKC; and

WHEREAS, it is mutually agreed between the RCKC and the Township that certain improvements are necessary on the county road system within the Township.

NOW THEREFORE, in consideration of the promises and mutual undertakings of the parties in conformity with the applicable state laws, it is agreed:

1. This Contract is entered into pursuant to Public Act 51 of 1951, as amended, and the RCKC shall serve as the administering agency for all Project(s) performed under this Local Road Contract.
2. The RCKC and the Township acknowledge that the estimated costs for the Project(s) identified herein are based upon current industry trends and recent actual project costs available at the time of execution of this Contract. Actual quantities and costs may vary due to bid results or conditions encountered during design and construction that could not have been reasonably anticipated.
3. Any change in project scope, funding allocation, or priority order shall require revision of the Local Road Capital Improvement Plan and execution of a revised Local Road Contract approved by both parties in accordance with Act 51 requirements.
4. The detailed estimate(s) of the projected cost of the Project(s) will be provided upon request from the Township.
5. The terms and provisions of the RCKC policies, including those provided in the annual RCKC Local Road Information Packet, are deemed to be a part of and included in this Local Road Contract as though fully set forth herein.
6. RCKC shall apply progress billings in the following order of available funding: RCKC/Township matching funds, additional Township funds, and Neighborhood Road Funds. Any grant funds included as a funding source shall be applied solely to eligible Project(s) costs in accordance with the terms and conditions of the applicable grant agreement and in compliance with Public Act 51 of 1951, as amended. Administration and expenditure of such funds shall be subject to all applicable state and grant requirements. Any unused Neighborhood Road Funds remaining at the end of a contract year shall be carried forward and applied first to eligible projects in the subsequent construction year.

If the total project expenditures for the contract year exceeds the total committed contributions of all parties for that year, the Township's Neighborhood Road Fund allocation for the subsequent contract year shall be applied first to offset the amount overspent.

Breach of this provision may be regarded as a material breach of the contract or purchasing agreement and handled accordingly. Further, any violation of this provision may be separately addressed in accordance with the foregoing laws.

12. The Board shall, upon reasonable notification, make available in its office to representatives of the Township all records concerning the Project(s) for review.
